The Local Authority had a discussion about young people driving too fast and reminded each other to discourage speeding in the community.

The Local Authority would like the area between the basketball court and corner of art centre and corner of swimming pool to have bollards so they cannot drive through. They need a speed bump and bollards either side so that cars can still go to the school. They also want a speed bumps out the front of the store and the clinic and purple house.

Graham mentioned there are two new full time positions about to start in the community. These could be part time so creating four new jobs. There are another four part-time positions available and 3 casual positions available.

Councillor Abbott asked how many people come out with the vet. Graham mentioned that sometimes he brings student vets with him and is trying to pass on the skills to a younger person so that they can take over in the long-term.

The road from Kintore to Nutju needs to be graded. It has only been graded halfway. The road from Kintore to the border has been marked for an upgrade, it might be possible that when they come out they can do some additional work.

## **OTHER BUSINESS**

Graham raised the issue of the jobs in the community. Graham wants to make sure the jobs are full all the time. There are a lot of jobs that are vacant, but they should be filled by local people. These jobs are flexible and if people want to work full time or part time that can be accommodated.

With the changes to the CDP program they will want people to be doing activities, but it would be better to have people in jobs. Could the Local Authority talk to the young fellas and tell them to see Don if they want work? It will be easier for people if they have jobs.

Some of the young people don't want to work, but they need to find jobs.
